

# How do I set my printers IP?

Here's how to reset the port setting and resume printing on the DaVinci printer:

## Procedure

1. Go to **Control Panel**
2. If Control Panel is set to View By Category change **Category** to Small Icons

[Adjust your computer's settings](#)

View by: **Category** ▼

3.  
Click **Devices and Printers**
4. Right click **DaVinci - HP LaserJet 600** and click **Printer properties**
5. Click the **Ports** tab
6. Click **Add Port...**
7. Click **Standard TCP/IP Port** and click **New Port...**
8. Click **Next**
9. In the **Printer Name or IP Address** field type
10. Click **Next**
11. Click **Finish**

These steps apply to any printer on the EPM network. Check the IP Address spreadsheet for IP Addresses of other printers.
